

I listen to K-LOVE Radio daily at home and in my truck. K-LOVE Radio is an uplifting good news station. I don't want this station replaced by LPFM broadcasts as this station connects me with what is going on nationally which can't be found on other stations of this type. The K-LOVE signal is family friendly which would be jeopardized with LPFM. Plus this current signal is listener sponsored where I don't have to listen to unwanted ads. Please keep the FM translator service intact.
